

Using Gold Seal Lessons to Improve Instruction

Using *Gold Seal Lessons to Improve Instruction* is a collection of 360 performance tasks in mathematics, science and English language arts for grades K-12.

The lessons are based on state standards and matched to the high priority topics tested on state assessments. In addition, the lessons are correlated to the highest rated topics in the International Center's Curriculum Survey of Essential Skills, which indicates the skills and knowledge needed by all students in their post-school lives.

Each lesson has a task, a scoring guide, and explicit links to the Rigor/Relevance Framework as well as to standards and

essential skills. The Rigor/Relevance Framework, which is based on Bloom's Taxonomy and the Application Model, is used to measure the lesson's level of difficulty and its relationship to the real world.

Teachers can use the Gold Seal Lessons to guide instruction and as resources to develop or expand lesson plans, student activities, and performance assessments.
